

Assignment Name: **Week 01**
Student Name: **Sylvain S. Kamdem**

TOPIC: What is Cloud Computing? Introduction to AWS, Create an AWS Account.

Answers:

Q1. What is Cloud Computing?

A1. Cloud computing is the delivery of computing services like storage, processing power, and applications over the internet instead of relying on local hardware and infrastructure (or on-premises).

Q2. Introduction to AWS.

A2. AWS stands for Amazon Web Services. It's a cloud computing platform provided by Amazon and that offers a wide range of cloud-based services (EC2, Amazon S3, Amazon RDS, Amazon Lambda, Amazon DynamoDB, Amazon Elastic Kubernetes Service, VPC, SQS, SNS,...) to individuals, companies, and governments. It was launched in 2006.

Q3. Create an AWS Account

A3. My AWS account was already created; here's a screenshot:
